Summary

I am passionate about technology and love to explore more in this field.

I am an athlete, a Netball Player. In 2019, I was selected in state netball team and we won bronze medal in National East-Zonal tournament.

I love to interact with passionate people, communicate with them and add more values to life by sharing experiences and knowledge that we learn throughout this amazing journey i.e "life".

I feel one of the best companion is BOOK and the best teacher is NATURE.

While exploring through different subjects, I find psychology more interesting and more insightful.

Here some of my contribution which I gain through different books and article on it: <https://funlrn.blogspot.com/>
